CONTENT 40%	CONCEPT	The concepts covered were in line with the lesson discussed by the instructor, relevant to the viewers and ideas were clear and complete.	The concepts covered were in line with the lesson discussed by the instructor, relevant to the viewers and essential information was delivered.	The concepts covered were somehow in line with the lesson discussed by the instructor, somehow relevant to the viewers and ideas were vaguely delivered.	The concept covered was out of the context, was not relevant at all and the ideas were unclear.	
	MASTERY	The presentors demonstrate a complete mastery of the lessons they've tackled	The presentors demonstrate mastery of the lessons on most parts of the tutorial video	The presentors demonstrate mastery of the lessons on some parts of the tutorial video	Lack of mastery of the topics was very visible	

	LANGUAGE AND IMAGE USE	The proper use of language and image/graph/diagram is very visible althroughout the video	The proper use of language and image/graph/diagram is visible on most parts of the video	The proper use of language and image/graph/diagram is visible on some parts of the video	The proper use of language and image/graph/diagram is not visible at all	
PERFORMANCE 30%	DELIVERY	The presentors delivered the ideas clearly and chronologically, with proper voice projection and enthusiasm.	The presentors delivered the ideas somehow clearly and chronologically. Good voice projection and enthusiasm were visible on most parts of the video.	The presentors delivered the ideas fairly clear. There's an inconsistency on the voice projection.	Presentation was not delivered clearly. Voice projection is inconsistent most of the time.	
	CREATIVITY	The presentors added various elements that will make their activity interesting and fun to watch and educative at the same time.	The presentors added some elements that will make their activity fun to watch and educative at the same time.	The presentors added few elements that will add entertainment on their activity, and somehow educative.	No elements were added on the presenation that makes the activity less interesting to watch.	
	TECHNICAL ASPECT	Video, in overall is very presentable. Subjects are clearly visible. Sound is clear and understandable. Few to no technical issues were shown.
