Connected IoT devices and systems

Why choose WAAI TEK

- ⊙ We are an innovation and business-driven technology provider.
- ⊙ We create and deliver smart solutions to enhance your business efficiency and productivity.
- ⊙ We are a team of data scientists, engineers and innovators – all technology experts and business focussed.
- ⊙ We are based in and committed to the development of the GCC region as a global hub for tech and business.

SERVICES

We currently provide three AI solutions to enhance your business performance:

COMPUTER VISION

Our Enterprise Computer Vision works by accessing high-level information from digital images and videos through sophisticated machine-learning programs. This video analytics solution allows you to get real-time AI through your CCTV cameras.

waai tek uses this key pillar of AI to detect, categorise and analyse video feeds, to train the computer system through these models to automatically recognise patterns and detect objects.

This tangible and measurable data gives you the business intelligence to base future commercial decisions on, leading to enhanced Return on Investment and business growth.

SMART SIGNAGE

Our Computer Vision Smart Signage Solution provides seamless navigation and parking for shopping malls, corporate and government buildings, school and university campuses, entertainment venues, stadiums and hospitals.

SMART SIGNAGE SOLUTION CAN:
Welcome, guide and engage with visitors while promoting offers, activations and loyalty programs.
Integrated with our Computer Vision Analytics, the movement of visitors can be measured, and you can gain valuable insights on customer journeys.

This insight and information can be used to autom processes and improve business efficiency

Our customised wayfinding solutions using AI make f seamless hyper-personalised experience for y customers. Enhanced customer engagement is carried using augmented reality wayfinding mobile de cameras and AI technology.
The enhanced overall visitor journey extends as fa navigating drivers to an available or pre-reserved par space, to providing personalised directions preregistered visitors.

SMART SOLUTIONS

AI is fundamentally altering businesses. waai tek is leading the way to help businesses grow by integrating AI in their operations.

By using our innovative and customised solutions, you will

create more agile and adaptive processes, and power b decision making to capture new opportunities.

AI TECHNOLOGY COULD INCREASE
LABOUR PRODUCTIVITY BY UP TO 40% BY 2

DIGITAL SIGNAGE

The waai tek Content Management Service Smart Solution streamlines the way you manage digital signage content across your network, helping you operate efficiently and grow rapidly.

If you have a network of digital screens that are underutilised or difficult to manage, we can help you unlock the power of digital signage by optimising its use and content.

The waai tek Content Management Service Solution will allows you to develop,organise, target, schedule and

distribute content seamlessly, and then monitor manage the displays that house them.

This will reduce the time and resources it takes understand and operate complex digital signage soluti and remove inter-departmental barriers, such as betw IT and Marketing, to get the right message to the r customer at the right time.

Unlock the power of future
in your business, today.
